

The Playground

The **Quest Playground** continues to focus on the journey and commitment of Indigenous Education, Equity and Dismantling Anti-Black Racism through Modern Learning. This year it will include virtual, interactive workshops. As part of the Playground experience, in collaboration with the Backyard and Studio spaces, attendees will have an opportunity to explore, learn, and share examples of how student voice is leveraged to shape ethical leadership through modern learning and digital literacy in YRDSB. Join us to learn more about Ethical Leadership and Digital Environments, Establishing Reciprocal Relationships with Families, and/or Coding with Purpose Through Design Thinking.

Information about these workshop experiences can be found in the Quest program and registration will take place through Connect 2 Learn.
