

The Backyard

*A new feature of this year's 2019 Quest Conference is **The Backyard**. This indoor space is intended to speak to a holistic view of Modern Learning, linking the YRDSB Indigenous and Equity Strategy and Outdoor Experiential and Environmental Learning. It will feature YRDSB staff and students as well as community partners who have collaborated with the YRDSB on these types of themes. The Backyard is a process focused, hands-on space with provocations around how we might decolonize the work and nurture relationships, voices and perspectives.*
